This course is given on a 'by donation' basis.

Not everyone knows that **Rudolf Steiner planned to hold three courses for agriculture.** Unfortunately, after the first one held at Koberwitz in 1924, he crossed the threshold and was not able to give the last courses to the world.

On the basis of the First Agriculture Course, biodynamics was born. It is legitimate to ask: **how might BD have evolved had the other two courses been given? One might also ask: after 100 years and completely different natural and environmental aspects, is it perhaps time to develop the courses which were never given?**

This agriculture course has the intention to investigate the deeper meanings of the First Agriculture Course and to bring a new impetus. We believe it is appropriate to enter the essence of Rudolf Steiner's message with consciousness for the good of all life. We invite all who feel love and responsibility for the natural kingdoms of the Earth to join us in an exploration and search for answers to meet our current problems.

CONTENTS OF THE PROGRAM

The course will have a 5-part format:

- 1) We will explore and delve deeply into the **First Course from Koberwitz.**
- 2) We will rise up to a higher level according to the indications that Steiner wished to develop in the **Second Course: namely, how the dialogues with living Beings are established** by 'entering' them, recognizing the 'god' within, the etheric, planetary and zodiacal Beings, and the traditional Ethers.
- 3) Rising to an even higher level, again according to Steiner's indications for the **Third Course: how to stimulate the adaptations in living Beings**, specifically the plants, Ethers and Christic planetary processes, identification of and gifts of the matrices, the Unity of Life in its infinite multiplicity of expression.
- 4) Again rising to a new level, and according to Steiner's indications for a **Fourth Course: to grasp Love in everything that surrounds us**, because it is only thanks to Love that man can expand his knowledge to be able to transform everything into active Love as Life; a study of the Matrices of meteorology and the possibility of interventions; the Christic Oasis of Life.
- 5) In the 'hypothetical' **Fifth Course**, we will courageously try to grasp how everything we encounter brings us questions that are fully answered only from the **perspective of spiritual evolution.** It is up to us to seek the answers until we grasp the Divine Essence which must be brought to manifestation to witness the New Creation that takes place through the Evolved Man, the Man ascended to Co-Creator in a path of initiatory growth. (Man in the Trinity of the Holy Spirit and in the Beyond, the Merkabah of Life, the Earth becomes a New Sun).

This course will be in-depth and basic concepts will be mentioned but not deepened.

REQUIREMENTS TO PARTICIPATE

A prerequisite is the maximum openness of mind and heart;
The desire to learn, to share, to commit, to develop strength of conscious love for the Earth, for Life and for the great evolutionary Design in which is inserted everything, but which is compromised due to the non-moral actions of man.

The course is given freely but requires commitment, study, and dedication to achieve a free and conscious Will: to the Moral Will to ascend from Creature to Co-Creator of new possibilities of Life

Our meetings will be structured in two moments: the first with English translation, the second (the following Monday) only in Italian for questions and insights on the work done.

If there are volunteers available to draw up a report we can then make it available.

IMPORTANT: Any questions for the meeting on Monday (in Italian) must be received in writing by 12 a.m. CEST on the same Monday by sending them to info@enzonastati.it.
